Company History

Fred Burrows, Sr. started our company in 1971 . Our current fleet of 20 dump trucks and 10 tractors with dump trailers service central New York daily. With sand, gravel, and topsoil mines and stockpiles of most aggregates, we are able to serve you in a prompt manner. Our 4 tractor trailers constantly haul interstate freight.

Fred Burrows, Jr. was made a full partner in 1992 when he received his civil engineering degree from Clarkson University. Our excavating division, supported by 3- excavators, 4-dozers, 6-loaders and numerous other pieces of equipment, can easily handle any sized job.
